

Digital Portfolio

STUDENT NAME :V.Shyam
REGISTER NO : 20324u09083
NMID : 4D590751D57E00C8AA44A99F4F4B46D4
DEPARTMENT : BCA
COLLEGE : Dr. MGR Chockalingam arts College Arni
UNIVERSITY :Thiruvalluvar UNIVERSITY

PROJECT TITLE

STUDENT DIGITAL PORTFOLIO USING FRONT END DEVELOPMENT

AGENDA

1. Problem Statement
2. Project Overview
3. End Users
4. Tools and Technologies
5. Portfolio design and Layout
6. Features and Functionality
7. Results and Screenshots
8. Conclusion
9. Github Link

PROBLEM STATEMENT

- In today's digital era, having a professional online presence is essential.
- Many students and freshers struggle to showcase their skills, experiences, and projects effectively.
- Traditional resumes often fail to highlight creativity and technical ability.
- A personal portfolio website solves this problem by providing an interactive and engaging platform.
- It allows others to quickly understand who I am and what I can do.
- This project was developed to address that exact need.

PROJECT OVERVIEW

- This project is a personal portfolio website designed using HTML, CSS, and JavaScript.
- It introduces me, highlights my interests, and provides a simple yet modern interface.
- The website is structured into sections such as Home and About, with smooth scrolling for better user experience.
- Its purpose is to demonstrate my skills in web development while also serving as a digital resume.
- The design is responsive, meaning it works well on both desktop and mobile. In the future, I can expand it with projects, skills, and contact sections.

WHO ARE THE END USERS?

- The main end users are recruiters and hiring managers who want to evaluate my skills.
 - Teachers and professors can also use it while grading my projects.
 - It is useful for friends and peers who want to learn about my work.
 - Additionally, anyone browsing the internet can view my portfolio to know about me.
 - This website also benefits me personally by helping me stand out in job applications.
 - Overall, the target audience includes professionals, educators, and the general public.
- 
- 

TOOLS AND TECHNIQUES

- The portfolio is built using HTML5 for structure and layout of content.
- CSS3 is used for design, styling, and responsiveness across devices.
- JavaScript provides interactivity, such as smooth scrolling between sections.
- Git and GitHub are used for version control and hosting the project online.
- The website design makes use of gradients and simple typography for a professional look.
- Together, these tools make the project lightweight, fast, and user-friendly.

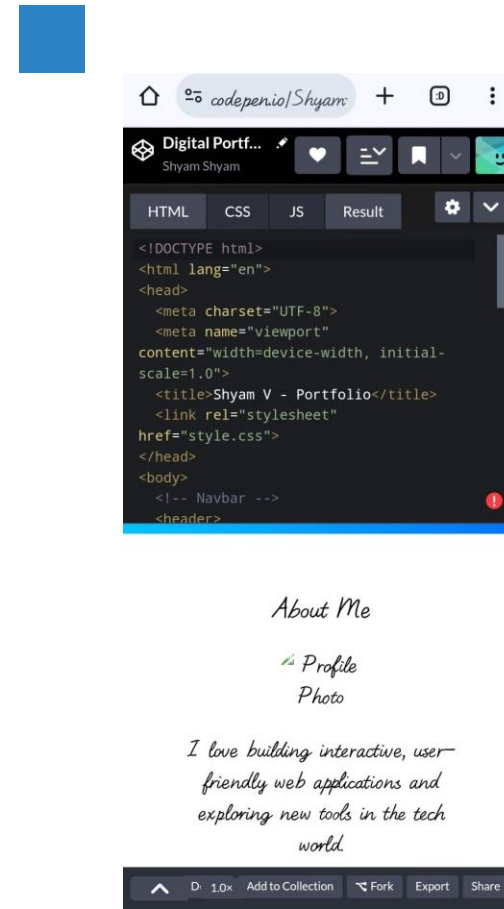

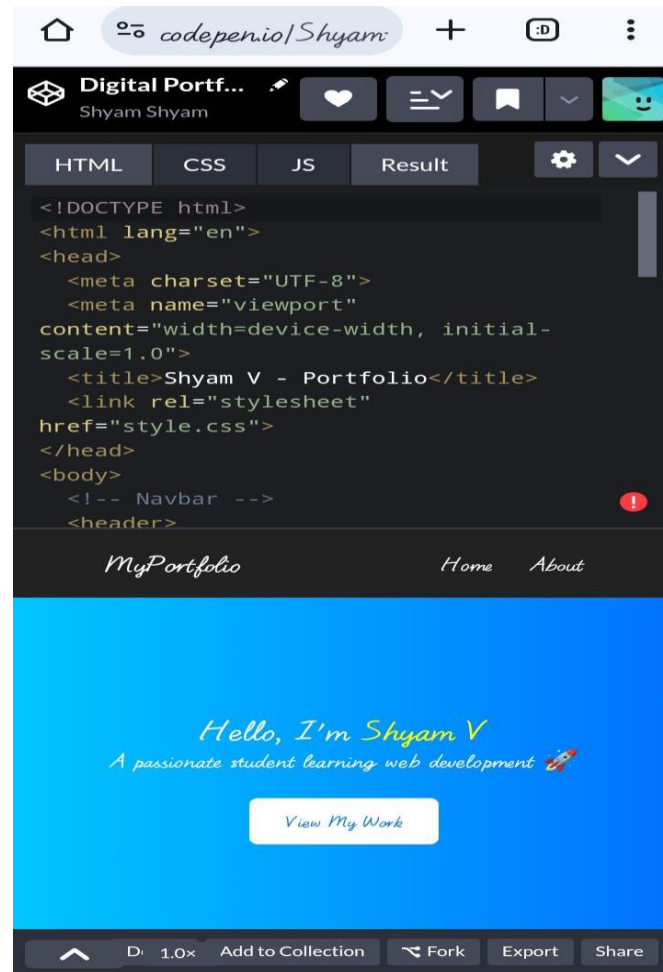

POTFOLIO DESIGN AND LAYOUT

- The design is clean, minimal, and responsive. At the top, a navigation bar provides quick access to Home and About sections.
- The Hero Section introduces me with my name, a tagline, and a call-to-action button.
- The About Section includes a profile photo and short description.
- The website uses a blue gradient background, bold white text, and yellow highlights to create contrast.
- The layout adapts to different screen sizes, ensuring usability across devices.
- This makes the portfolio visually appealing while keeping it simple.

FEATURES AND FUNCTIONALITY

- The website is fully responsive and adjusts seamlessly on desktops, tablets, and mobiles.
- It includes smooth scrolling for easy navigation between sections.
- The interactive button (“View My Work”) enhances the user experience. The navbar links allow quick movement across the site.
- The design features a gradient background, highlighted name text, and bold typography.
- Overall, the portfolio is user-friendly, simple, and effective at showcasing personal details.

RESULTS AND SCREENSHOTS

CONCLUSION

- 
- In conclusion, this project was a great opportunity to practice my web development skills.
 - I successfully created a responsive and interactive portfolio website.
 - It helps me build a professional online presence and showcase my abilities.
 - The site can be further improved by adding sections like Projects, Skills, and Contact.
 - With future updates, it can become a complete digital resume.
 - Overall, this portfolio is a strong foundation for my personal branding.
